

Amendment to the Claims:

The listing of claims will replace all prior versions, and listings of claims in the application:

Listing of Claims:

Claim 1 (Currently Amended): A method of distributing electronic content between first and second terminal devices, said method comprising the steps of:

(a) storing tailoring information in a memory module separate from and releasably attachable to at least the second terminal device, the tailoring information defining what electronic content is able to be transferred, a period of time during which the defined electronic content is able to be transferred, and whether the defined electronic content can be transferred ~~by the second terminal device to a further terminal device~~ from the first terminal device to the second terminal device;

(b) attaching the memory module to the second terminal device;

(c) while the memory module is attached to the second terminal device, reading the tailoring information from the memory module into the second terminal device;

(d) comparing the tailoring information in the second terminal device with tailoring information included with the electronic content; and

(e) if the tailoring information in the second terminal device compares favorably with the tailoring information included with the electronic content, transferring the defined electronic content from the first terminal device to the second terminal device according to the tailoring information and if the tailoring
